Norwich, Saturday, Feb. 20, 1915.

The Circulation of

The Bulletin

The Bulletin has the largest circulation of any paper in Eastern Connecticut and from three to four times larger than that of any in Norwich. It is delivered to over 3,000 of the 4,053 houses in Norwich, and read by ninetythree per cent, of the people. In Windham it is delivered to over 900 houses, in Putnam and Danielson to over 1,100 and in all of these places it is considered the local daily.

Eastern Connecticut has fortynine towns, one hundred and sixty-five postoffice districts, and mixty rural free delivery routes. The Bulletin is sold in every town and on all of the R. F. D. routes in Eastern Connecticut.

CIRCULATION

NEW HAVEN LEGISLATION.

Concerning the appeal of the New states which will make it possible for it to meet its obligations and continue on a sound financial basis there is being manifested a favorable disposition. It is being realized that road is coming before the states with an honest presentation of the facts, that it is seeking proper legislative assistance which will aid in the rebuilding and that it is deserving of cooperation in its effort which means nch to New England.

Such is manifested even in the remort and recommendations of the pubservice commission of Massachu setts concerning the affairs of the road and its legislative bills. While the ommission takes a fling at the old stangement when it declares "it has ither conformed to the letter or the pirit of our statutes," and "it cannot be assumed that its capitalization repand prudently made even within the of the end

A POPULAR FAILURE

Elvery effort to drive the ship pur chase bill through congress has failed. It suffered chiefly from its own weakwhich the administration has attempt ed to force it upon the country. Not alliefied with the blockade in the senate an attempt was made through the house to raily sufficient support to a compromise measure, but that suffered the same opposition in the senate as the unmodified bill.

The announcement by the president that there will be no extra session about the South American countries. of congress and the preparations for sking up the appropriation bills and the regular business of the short sescion which have already been unwar-rantably delayed, indicates that hope of March." for the passage of the ship measure has been practically abandoned. It is action which should have been taken endeavor has been apparent for sev- tribution of free seeds, erzi days, but every possible chance was exhausted by the administration mault is that there remain but twelve days in which to take action upon many important supply and appropriation bills. Either this business er the ship bill had to be sacrificed and in abandoning the latter the better ourse has been followed,

A valuable service has, however masterly manner in which the oppouents have guarded the interests of the cuntry and defeated a measure which s fundamentally wrong. Even though the president has indicated that he

part of the country and what an important part forests play in the con servation of water supplies. The expenditures which have been made that far in the securing of this land have smounted to five and a half millions. It does not seem as if good-will is the average price paid being \$5.08 an acre, but in the opinion of the commission only about one-fifth of what is needed has been secured, it being it helds together and leads power to considered that five million acres over overalization under the sun. is needed has been secured, it being considered that five million acres should be obtained in the southern Appalachians and 600,000 in the White

Whether the commission will be succeasful in obtaining the continuation of provisions similar to the Weeks these tracts for the development of the

GERMANY HURTS ITSELF.

One of the most damaging admissions that has been made by the German empire since the opening of the var is its situation as to foodstuff's. has been persistently maintained from the very start that through preperation and the resources of the empire and its ally that it would be impossible for the enemy to have any rious effect upon its food supplies, When, however, Germany informed ie United States that it would be lling to rescind its war gone orders relative to shipping if Great Britain would agree not to interfere with the and to be expected. This had to a degree been indicated by the government taking charge of all supplies and retricting the use of food to stipulated amounts. The altempt to exert a pressure upon Great Britain through this unmistakably disclosed, weakness, which must be recognized as vital one.

ession of well established facts, which might otherwise only have been surnised. That it has given Great Brl tain the cue for new action cannot help being recognized, but just what it will et been shut off since Germany's ports are not blockaded except as to entraband. No policy has been adopted for the starvation of Germany and if that condition should follow it must be recognized as coming from the ac-Haven road for new legislation in three tion and revelations which Germany has recently made.

OUR FOOD SUPPLIES.

The people of this country have fare. cause to give thanks every day for for nothing it at bottome bumper crops of last year. At widespread meanness. the humper crops of last year. At the time there was some question as to how they could all be utilized; today it is hard to understand how they could have been gotten along without. The demands have come in the very line where nature, as if anticipating the situation, had made timely prep-

from abroad for our wheat and large orders have been and are being find but when it is shown by the department of agriculture that there is sufficient on hand in this country so that a million bushels might be exported regents as a whole investments honest- tic supply, it not only gives some idea short backbones that mous quantity that was har.

as have been furnished by the government, and the prospects of a large asked to define it, for they are not asked to define it.

If that is possible in the year of de little justification is possible in the year of de little justification.

THE MAN WHO TALKS

every organisation under the sun Good-will is the foundation of good breeding and good nature and good humor and every sort of goodness sood-will is the guardian angel who has been likened to the bee which co of provisions similar to the Weeks lects honey from every herb, while bill until 1920 as it desires will de-pend upon the scenomy practices of from the sweetest flower. Good-will congress, but it is to be realized that is a divine force; and it was expresse through such uses as are made of by angelic voices at Bothlehem, an by angelio voices at Bothlohem, and is weakly manifested at Christmas time. That which should and would matural resources and the protection of slways be our weapon and defence is swafersheds as a guard both against sadly neglected. We have no faith in sadly neglected. floods and droughts, a large section of it although it has the power to and the country is bound to be benefitted. wars and to forever overcome poverty.

While the campaign for rights is going on it may be enlight-ening to consider the steady curtail-ment of men's rights in this free ing prosecuted for trespass; he not send his children to school unless they have been vaccinated; he cannot splt on the sidewalk without being prosecuted; he cannot peddle or couduct the barbening business without dicense; no matter how reputable he i he cannot buy rock and rye of a Sun day for a sick member of his family or dope for a suffering dog on an prescription: he cannot marry in this would agree not to interfere with the sending of foodstuffs to the non-combatants of Germany, a serious revelation was made as to the conditions now and to be expected. This had to a detailed to be expected. This had to a detailed to the conditions of the conditions of the conditions of the conditions now and to be expected. This had to a detailed to the conditions of t consent of the family; and laws for ompulsory medical examination once year of all citizens in the interest public health, Paternalism seems to e running mad.

It is the same spirit which constant f the renters of tenements to adop the motto "It is cheaper to move than pay house rent." This constant ambi-tion to beat the other fellow is ingrained dishonesty. Resolving to get things cheap requires the manufacture of things cheap, and leads to criminal produce in the way of keeping foreign getting semething for nothing idea has a hold upon many of the people in mains to be seen. Such have not as every city, town and hamlet in American ica. There are renting families who only fail to pay when they have de-cided to move, and then they calculate to cheat the last landlord out of money enough to pay for moving expenses and the first month's rent in the new place. These experts in calculation vary in the intensity of their selfishness, and the extent of their dishonesty, as is shown when women teach their children to reduce their apparent stature to evade a five cent trolley fare. The attempt to get something

> I do not think there are as many trolley conductors with short arms as there are passengers with short back-If there is a shortage of any. when they know they are right; and fact that "the fears of one class of are not the measure of the rights some other class," It is because

clastic limits of its Connecticut charter. It does nevertheless realize that there has been a radical reform in the management and that the sins of the management and that the sins of the past should not be charged to those mow in control. The past is gone, and while it will not be forgotten, the convex of the present and the full case of the case of the present and the full case of the present and the full case of the case of the present and the full case of the case of the present and the full case of the present and the full case of the case o

people. They constituted that element that was to keep humanity sweet and wholesome. By mingling in the affairs of the world they were to keep society from rotting. Without them decay was sure for the race and its institutions. Do we stop to think how much we owe to the really good people of all time? As a matter of fact they have ever stood between our world and perdition. The saints who from their labors rest have been saviors of humanity. Suppose for a minute we had manity. Suppose for a minute we had

have self sacrifice days, but when it comes to individuals it is a long time between the last and the next.

Even the democrats are worrying lest the threatened extra session of congress will make it necessary to observe the one term provision.

Ind more in the hest lived life to criticise than to commend. We cannot seem to walk so straight that we will not call forth crooked remarks. No wonder the human tongue is distinguished as the only tool that gets company of quiet and holy people who observe the one term provision.

Ind more in the hest lived life to criticise than to commend. We cannot seem to walk so straight that we will not call forth crooked remarks. No wonder the human tongue is discovered in the midst of it a company of quiet and holy people who observe the one term provision. and the performances he avoids "Safety first" is just as appropriate hung in
memory as in the public square.

Some one ventures to say the rea-

memory as in the public square.

A fellow who was twice sent to an important the wiff feel the pulse of the people, and is warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call but the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session from the colorade legislature but two warranted will call an extra session to the colorade legislature but two warranted will call an extra session to the colorade legislature but two warranted will call an extra session to the colorade legislature but two warranted will call and the colorade legislature but two warranted will call and the colorade legislature but two warranted with the colorade legislature but two warranted will call and the colorade legislature but two warranted will call and the colorade legislature but two warranted will call and the colorade legislature but two warranted will call and the colorade legislature but two warranted will call and the colorade legislature but two warranted will call the colorade le

too, with the utilization of wood pulp and other aubstances. Longfellow has a line. "That is best which lieth nearest;" explaining how genius, not waiting for opportunity to come to it, selses the simple things near at hand, turn-ing out some work of useful art. And if men's eyes are only opened wide enough, they will generally see ab-them some chance to make of c element or another something differ ent from its present form, something possibly, of great commercial, indus-trial, or artistic value,

During a summer by the shore on the Massachusetts coast, it was inter-esting and surprising to see how the people of the little village were turning into food for others and mer for themselves what had alway seemed, to anybody except a botant but the weeds of the sea.

As the tide receded daily, the fisher men would wade out to the rocks long wooden rakes collectin is popularly known as Iris

moss.

This was carefully spread upon to strand to dry in the sun. It had be watched with care, as sometime an unheralded shower would come in the sun to be supported by the sun to be supported by the support of the an unheralded shower would come up suddenly and, lo! it was washed into the sand, a useless gum!

But if the long dry season went favorably, after turning and sorting, it was ready to be packed and sent to market, to form the basis of our desserts, in blanc mange, etc.
